An Aged Gander.

The birds that live to a great age are comparatively few. Gulls have been known to reach forty years, parrots frequently live eighty years and swans nearly as long. Ravens and owls usually die somewhat younger, but there sembling the guitar, mentioned in I is good reason to believe that eagles and falcons sometimes live more than a hundred years. Of barnyard fowls ducks and geese live longest. D. Mac. into Palestine by the Hebrews after ducks and geese live longest. D. Mucthelr return from the Babylonian capthe Field that he has a gander that is now sixty-six years old. For forty-five years it belonged to the proprietor of a hotel at Bridgend, Scotland. Twentyone years ago the father-in-law of the present owner bought it. Mr. Mac-Lachlan says that the gander looks as well and as young and seems as active as it ever did. There is no doubt about
